New Product Announcement

Dear Customers,

Winland Electronics is excited to announce the anticipated release of its **EnviroAlert Professional®** line of products, currently expected to be available for order in the first quarter of 2022. The EA Professional line will initially include a controller/gateway as well as wireless sensors and transmitter. The gateway will also be compatible with all of our current hard-wired sensors. The EA Professional line was created to better equip users with added features as well as the ability to add additional capabilities and hardware in the future. The **EAPro® Gateway** will be compatible with our INSIGHT cloud-based monitoring platform as well. Information pertaining to specifications and pricing will be released soon.

This letter serves as a formal notification that Winland Electronics is discontinuing the production of the products below. Winland Electronics acknowledges the obligation to promptly inform its customers of its intent to end life of products in order to enable its customers to prepare for alternatives.

The following products will no longer be available after current inventory levels are sold. As of the date of this letter, there are sufficient levels for the remainder of 2021; however, demand will influence quantities available. When ordering, it is advisable to obtain availability by contacting our office.

Discontinuing
