

## Winland Reports Q4 2012 and Full Year Financial Results

**Mankato, Minn. / March 5, 2013**—Winland Electronics, Inc. (NYSE Amex: WEX) today reported sales of its Environmental Monitoring products of \$946,000 for the fourth quarter ended December 31, 2012, an increase of \$175,000, or 22.7 percent, from the \$771,000 in the comparable period in 2011.

Net income from the quarter totaled \$303,000, or \$0.08 per share, versus a loss of \$94,000, or \$0.03 per share, in the fourth quarter of 2011. The company reported a net loss of \$156,000, or \$0.04 per share, from continuing operations, a result that does not include the gain on the sale of the company's land and building, completed in the fourth quarter of 2012.

For the full-year, product sales totaled \$3,713,000, up \$269,000, or 7.9 percent, over 2011. Winland reported a net income of \$21,000, or \$0.01 per basic and diluted share, versus a \$740,000 net loss, or \$0.20 per basic and diluted share, for fiscal 2011. Excluding the one-time gain on the sale of the company's land and building, the full-year loss from continuing operations totaled \$634,000, or \$0.17 per share.

"Our environmental monitoring products, particularly our EnviroAlert series, continue to gain traction in the marketplace," said David Gagne, Winland's chief executive officer. "Again in the fourth quarter of 2012, we saw a positive year-over-year increase in sales. This is encouraging in light of our new strategic direction to offer our EnviroAlert series as part of a Software as a Service, or SaaS-based model."

Gross margins improved during the quarter to 31.0 percent, up from 28.9 percent in the third quarter and from 21.5 percent in the fourth quarter of 2011. The increase in gross margin was related to a more favorable product mix in the fourth quarter and lower promotional discounts. Gross margin for the full year was 29.4 percent, versus 27.6 percent in 2011.

Research and development expenses totaled \$91,000 for the three months ended December 31, 2012, essentially flat relative to the \$87,000 in the comparable period in 2011. For the 12-month period, R&D expenses totaled \$285,000 versus \$237,000 in 2011, an increase attributable to the continued development of the Company's EnviroAlert EA800-ip.

G&A expenses for the quarter totaled \$201,000, up from \$159,000 in the comparable period in 2011. The increase in the current quarter was attributable to increased professional fees. Overall operating expenses for the quarter declined to \$443,000, down from \$482,000 in the fourth quarter of 2011, the result of decreased sales and marketing costs, which totaled \$151,000 in the current quarter versus \$236,000 in the fourth quarter of 2011. Full-year operating expenses totaled \$1.7 million, down from

just under \$2.0 million in 2011. Details of these and other expense items can be found in the company's 10K filing with the Securities and Exchange Commission.

"Earlier this year we announced our intention to strategically focus on becoming a leading provider of real-time, cloud-based environmental monitoring solutions by implementing a SaaS business model," Gagne said. "We see a billion-dollar-plus market with a growing need, and we also believe we can become a leader in this space. With the right investments and the time to execute our plan, we believe we can increase shareholder value by tapping into this promising market."

### **About Winland Electronics**

Winland Electronics, Inc. ([www.winland.com](http://www.winland.com)) is an industry leader of critical condition monitoring devices. Products including EnviroAlert, WaterBug, TempAlert, Vehicle Alert and more are designed in-house to monitor critical conditions for industries including health/medical, grocery/food service, commercial/industrial, as well as agriculture and residential. Proudly made in the USA, Winland products are compatible with any hard wire or wireless alarm system and are available through distribution worldwide. Headquartered in Mankato, MN, Winland trades on the NYSE Amex Exchange under the symbol WEX.

### **Cautionary Statements**

Certain statements contained in this press release and other written and oral statements made from time to time by the Company do not relate strictly to historical or current facts. As such, they are considered forward-looking statements, which provide current expectations or forecasts of future events. The statements included in this release with respect to the following matters are forward-looking statements: (i) that the Company's products continue to gain traction in the marketplace; (ii) that the year-over-year increase in sales has a relation to the Company's new strategic direction to become a SaaS-based business; (iii) that the Company can become a leader in its targeted market; and (iv) that with the right investments and time, the Company can increase shareholder value. These statements involve risks and uncertainties, known and unknown, including among other risks that (i) the products are in fact gaining traction in the marketplace; (ii) that the year-over-year increase in sales has no relation to the Company's new strategic direction to become a SaaS-based business; (iii) that the Company is unable to become a leader in its targeted market; and (iv) that even with the right investments and time, the Company is unable to increase shareholder value. Consequently, no forward-looking statement can be guaranteed and actual results may vary materially.
