

Wiring Guide for the WB200.

The purpose of this document is to provide a visual aid to assist with wiring common applications for the WB200.

- Page 1: Cover of the WB200 with description of Wiring Diagrams
- Page 2: Focus on power input
- Page 3: Focus on sensor Input
- Page 4: NO & NC to panel
- Page 5: Piezo or solenoid
- Page 6: WB200 with multiple connection all in one diagram.

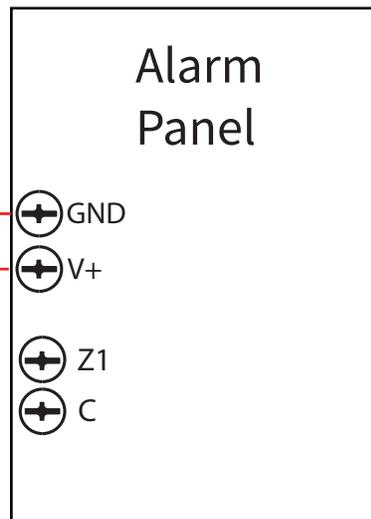

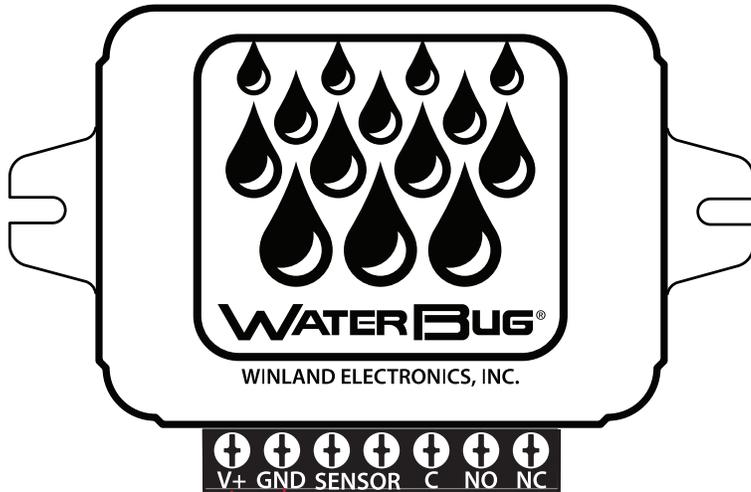

| Wiring Key | |
|---|---|
|  | Positive Wire |
|  | Ground Wire |
|  | Sensor Wire |
|  | Normally Open ("N.O.") Wire |
|  | Common Wire |
|  | Ground-Common Jumper |
|  | 3 rd party external Power Wire |
|  | 3 rd party external N.O. Wire |

WB200

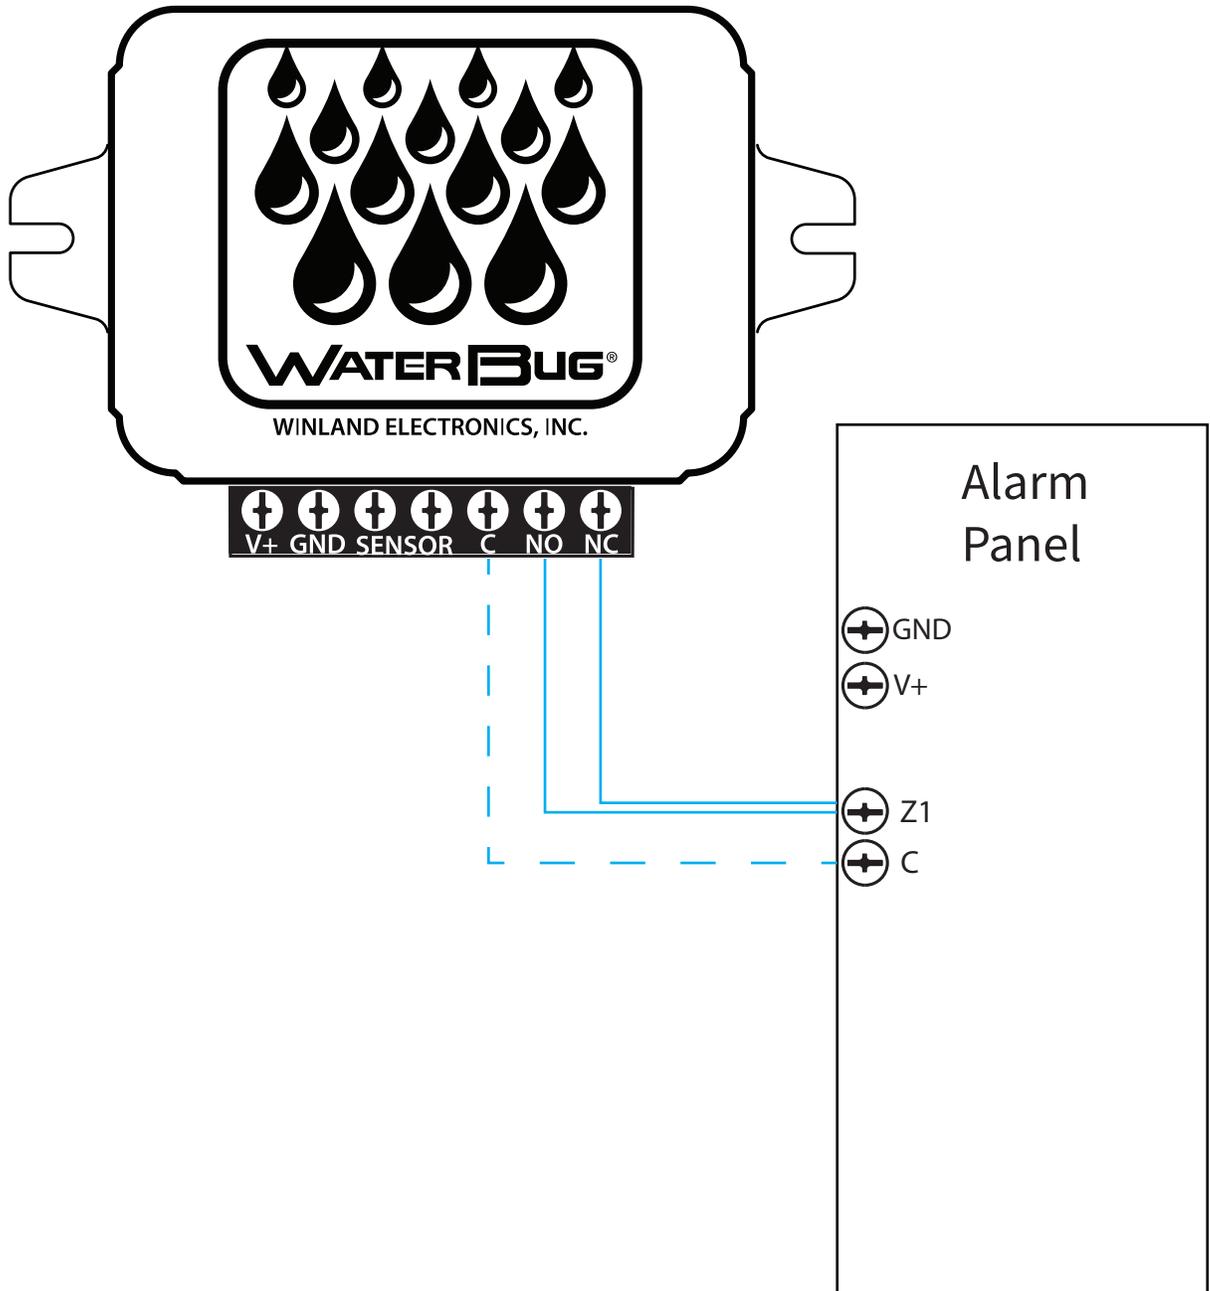

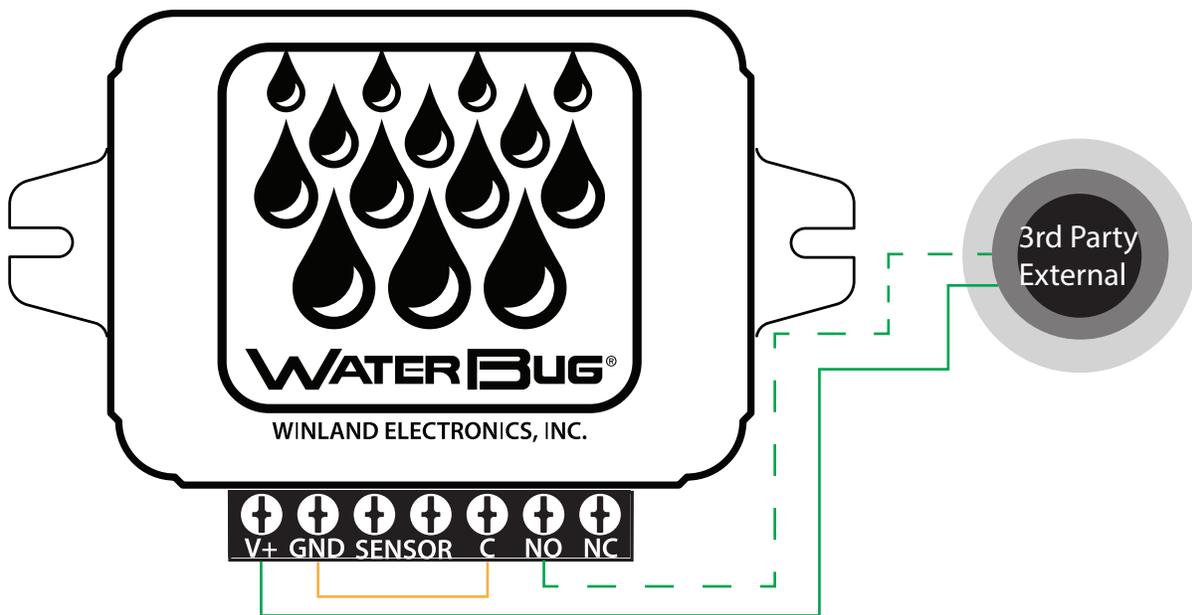

WINLAND™
ELECTRONICS, INC.

Note: Depending on how your panel is programmed you will only run one 18-22AWG guage wire from NO or NC

Note: 3rd party external will have to only require 12V DC power to operate properly from the WB200

Example of 3rd party externals:

- Buzzer
- Strobe Light
- Shut-off Valve
